Health and Strength RESTORED

BY THE USE OF
Ayer's Sarsaparilla
Mrs. M. A. Cumming, of Yarraville,
Victoria, Australia, says:

"About a year ago, I had a severe attack of influenza, which left me very weak, without energy, appetite, or interest in life. Obtaining little or no relief from doctors, or from the many remedies recommended to me, I finally tried Ayer's Sarsaparilla, and from that time, began to gain health and strength. I continued the treatment until fully recovered, and now have very great pleasure in telling my friends of the merits of Ayer's Sarsaparilla, and the happy results of its use. I consider it the best blood-purifier known."

PROSPECT OF HOME RULE BEING GRANTED CUBA.

Veto of President Cleveland Overrid-
den—Complete Budget from
Many Countries.

UNITED STATES.

Owing to the defective appeal system of California it is not likely that Durrant will be executed this year.

The battleship Oregon made 16.78 knots in her four hours' trial, and a bounty of \$175,000 will go to her builders, the Union Iron Works of San Francisco.

There is an open revolt of gold Democrats in Illinois.

The Daily American Wheelman just started in New York is the first cycling daily paper ever published in the English language.

Ex Senator William A. Wallace of Pennsylvania, an able statesman, is dead in the 69th year of his age.

Another million in gold was to be shipped to Europe from New York on Friday. The treasury gold reserve that day was above \$112,000,000.

Representative Hepburn, in a speech in Congress, said that the river and harbor bill had been passed by a brutal majority without debate, and he made the assertion that not a section of the bill had ever been read in the House. Not in the history of the country had been known such villainous legislation. Seventy-five millions carried in a bill, not a paragraph of which was ever read for consideration. After such a procedure the gentlemen now had the assurance to ask its opponent to point out its multiplied iniquities.

It is believed that a flood of U. S. counterfeit half dollars, which lately appeared in San Francisco, was the product of Chinese minters in China, carried into this country in belts around the waists of Chinese actors for the Atlanta Exposition. The spurious character of the coins could only be detected under a strong magnifying glass.

Governor Budd of California offers \$1000 reward for the arrest and conviction of Joseph Blanthier for the murder of Mrs. Philomena Langfeld of San Francisco on May 15.

A dozen indictments have been returned against citizens of Astoria, Oregon, for smuggling Chinese into the country.

The fifth whale of the season has been captured at Monterey bay, Southern California, and the business is declared to be profitable.

Senator Mitchell will push a vote on the favorable report of the committee on elections, made two months ago, on the bill for a constitutional amendment to have United States Senators elected by direct vote of the people.

The Senate has decided by a vote of 34 to 20, against obstruction tactics, to take up Butler's bill to prohibit the issue of bonds. A vote on the bill was expected to take place on Monday. Senator Sherman called the measure the act of a dishonest bankrupt.

It is said President Cleveland is thinking seriously of sending another financial message to Congress, or of announcing another bond issue in his message vetoing the river and harbor bill.

Sarah Bernhardt engaged for her company, before returning to Europe, Miss Ray Rockman, a young American actress of Californian birth.

The Lord Mayor of London, England, has become the owner for \$25,000 of a group of mines in the Ibex mining district, California.

Reports from various parts of Missouri indicate that army worms are more numerous and more destructive than for years. In some localities the worms have devoured all the growing grain.

The bill to pension Francis E. Hoover of Ohio was passed by the House over the President's veto by a vote of 196 to 47.

The fortification bill, which passed the Senate, appropriated the liberal sum of \$10,768,888.

Three days balloting has failed to elect a Senator in Louisiana.

EUROPE.

Another bomb has been exploded in Madrid near the palace.

John Dillon and four other members were suspended for obstruction in the House of Commons at the closing session of twenty-four hours.

The woman Dyer, who has been on trial on the charge of murdering numerous infants entrusted to her care, has been sentenced to death in London.

John Redmond, leader of the Parnellite faction of the Irish party, writes to the Independent accusing the Dillonites of trying to wreck the Irish fund bill by helping the Liberals to obstruct the English bills, which the Government is determined to pass before the land bill. The latter, he says, requires amendment, but it is an important measure for Ireland.

After a continuous and at times stormy session of nearly twenty-four hours, the House of Commons adjourned on the 22nd inst. until June 1st. The deadlock was over the agricultural rating bill, providing the reduction of rates on agricultural land, which finally passed.

A dispatch from Moscow says the French alliance is strongly deprecated by the lower class and even by the enlightened official classes, who have easily discovered that there is no depth of sincerity in the professed fellowship. It is added that the time is probably not far distant when Russia will be in a position to disregard all Western European alliances.

In the regatta of the Royal Thames Yacht Club the yachts Britannia, Satanita and Ailsa crossed the winning line in the order here given. The race for twenty-raters was sailed by Howard Gould's Niagara and Charles D. Rose's Penitent, which was specially built to race against the Niagara. Mr. Gould's boat won by 59 seconds. The course was around the Westoaze, a distance of forty-five miles.

The funeral of Archduke Charles Louis, brother of Emperor Francis Joseph and heir presumptive to the throne of Austria-Hungary, who died May 19th, took place at Vienna on the 22nd.

Considerable excitement has been caused at Havre by the action of the American Consul in preventing the shipment of a cargo of cattle destined for the United States. The action is partly in retaliation for the warfare on American live stock waged in Germany and France, and besides American officials hold that pleuro-pneumonia and foot and mouth disease are prevalent in those countries.

Mme. Clara Schumann, nee Wieck, the pianist, and widow of Robert Schumann, the composer, is dead, aged 77 years. Mme. Schumann was "the uncrowned queen of pianists," to quote the words of Hans von Bulow. She was not merely the widow of the man who wrote "Traumerel," nor was she merely his wife. One might say truly that she was his artistic creator. Had it not been for Clara Wieck the world would never have heard of Robert Schumann.

MAGNIFICENT PAGEANTRY.

A large representation of the United States, consisting of army and navy officers and headed by Minister Breckinridge, has been received at Moscow for the coronation ceremonies. The official entry of the Czar into the city was attended by a pageant of indescribable splendor. Sir Edwin Arnold, in his newspaper correspondence, begins with the remark, "Why cannot one write in colors?" adding, "There was never anything seen on any stage like the living kaleidoscope of fanciful attire, of fantastic hues and em-

bellishments visible around me, particularly in the Oriental element and all the Far Eastern nations." After describing Oriental sections of the procession, Sir Edwin says, "But these and other parts of the pageant palled before the grand master of ceremonies, borne haughtily onward in such a golden chariot as I thought existed only in heaven or classical pictures, holding a wand of gold, topped with an emerald as big as a walnut."

CUBA.

News has been received in New York of the safe arrival in Cuba of the Laurada expedition. The landing was effected on Tuesday night on the northern coast, between Madrid and Cabanas. The expedition was commanded by General Juan Fernandez Ruiz, one of the veterans of the ten years' war, and consisted of 97 men, 750 rifles, 830,000 cartridges, a printing press, dynamite, electric batteries and drugs and surgical instruments.

It is believed that the steamer Bermuda, which left Jacksonville several weeks ago with men, arms and ammunition for the Cuban patriots, has succeeded in landing on the southern coast thirty-six men and all her cargo, consisting of 390 rifles, 415,000 cartridges, 1200 pounds of dynamite and a Hotchkiss gun. The Bermuda, according to instructions, was to have landed at another point, but she encountered two or three Spanish cruisers and therefore had to change her plans.

The schooner Three Friends, heavily laden with arms and ammunition and having a number of fighting cigar-makers ready to take the field, has been prevented from leaving Florida by the United States authorities.

A special to the New York World from Madrid says: In consequence of representations made by the American Government the Spanish Cabinet will try to induce Captain-General Weyler to reconsider his prohibition of the exports of leaf tobacco to foreign countries. The edict has been welcomed in Spain and Havana as a clever blow dealt at the people who are considered to be the chief abettors of the insurrection—Cuban cigar-makers in Florida and other parts of the United States.

General Weyler has received an important dispatch from the Spanish Ministry upon a radical change in his military policy and the immediate inauguration of more humane measures.

Indications point to an increase of the influence of Martinez Campos at Madrid. A letter from him to a personal friend says he hoped to return to Cuba in October with full powers to inaugurate the long-promised autonomist measures.

The Spanish Government is quite satisfied with the friendly disposition shown all through by President Cleveland, Secretary Olney and other Federal authorities, and especially with the fair, amicable tone adopted in the representations made about the Competitor case.

MISCELLANEOUS.

Insurgents are whacking the Turks right and left on the island of Crete. Turkish inhabitants are fleeing in panic.

News has been received from Valparaiso that on the initiative of Chile it has been decided to establish between Brazil, Chile and Argentina a commercial agreement applying the principles of the Monroe doctrine to South America.

Ex-President Caceras has telegraphed President Pierola, offering his own and his party's services to repress the insurrectionary movement in the Loreto district of Peru.

Professors Cox and Callendar of McGill University, Montreal, have discovered that the X rays are susceptible to magnetic influences. The discovery is important and disproves Professor Roentgen's theories of his own discovery of the rays.

LEGISLATURE IN SESSION

THE CALIFORNIA WINE BILL PASSES THIRD READING.

Senators Reconsider the Bill to Regulate the Practice of Medicine and Pass It—House Proceedings.

EIGHTY-SEVENTH DAY, MAY 29TH.

THE SENATE.

After the usual preliminaries in the Senate this morning answers were received from the Minister of Foreign Affairs to questions propounded by Senator Holstein, as follows:

Question 1. Does the Executive contemplate amending the Tariff Act of 1892, in relation to an increase of duty on wines or fermented drinks, whereby sake would have to pay a heavier duty? Answer: No.

Question 2. If so, would the proposed amendment be brought in this session? Answered by the answer to question one.

Question 3. Would you furnish the Senate with copies of the treaty between Hawaii and Japan? Copies of the treaty have been distributed among the Senators.

Question 4. Are there any provisions in the said treaty which prohibit this government from increasing duties on sake. Answer: The treaty provides that the same privileges be granted to the citizens of Japan as are granted to citizens or subjects of other nations; that they shall pay at all times such duties and taxes as may be exacted from citizens or subjects of other nations. There is nothing to prohibit the passing of a law increasing the duty on sake, provided that it be a general law affecting all liquor of a similar character; but a law which should single out sake and discriminate against that liquor would not be in conformity with the provisions of the treaty.

In answer to the questions propounded by Senator Waterhouse yesterday as to claims against the Hawaiian government by those imprisoned during the late revolution Minister Cooper replies:

"To answer the questions propounded by Senator Waterhouse on the 28th instant, would require the discussion of subjects now under consideration by the Department, for which reason I beg to be allowed to decline to answer the questions propounded."

The usual communication from the House relating to the progress of legislation was received.

Senator Horner from the Miscellaneous Committee reported favorably on the wide tire bill, but favor the extending of the limit of time to 1903 instead of 1900.

Senator Baldwin, under suspension of the rules, reported verbally on Senate Bill 26, relating to Hawaiian made wines.

Senator McCandless presented a majority report favoring the Income Tax bill, and recommending that it pass.

President Wilder decided that the motion of Senator Rice yesterday to reconsider the vote on the bill to regulate the practice of medicine was in order, and upon being put the motion carried.

The bill was then put again on its final passage and passed by a vote of 10 to 2, Senators Holstein and Waterhouse voting no.

The bill to create a Department of Public Instruction was read the third time and passed.

Senate Bill 48, relating to California wines, was next taken up on third reading and passed by a vote of 10 to 2, Senators Waterhouse and Lyman voting no.

Senator Lyman from the Joint Conference Committee on the Internal Tax Bill presented the report of that committee on the amendments agreed on and the report was adopted.

Senator Waterhouse from the Joint Conference Committee on the License Bill reported the re-

sult of their labors by which every House amendment but one was agreed to.

Senator McCandless said he never heard of such a report. Not a single item recommended by the Senate had been adopted by the committee. It looked like a complete surrender of the Senate to the House. He was willing to give and take but in this case it was all give. He would move that the report be not adopted.

Minister Damon said the licenses interested were of such small importance as not to materially affect the revenue to be obtained.

Senator Waterhouse said it was a compromise. It is true the House got nearly everything in this bill but on the other hand the Senate got their amendments adopted on the conference on the Internal Taxes bill.

Senator Brown thought the Senate should have received more consideration but as the matter was of such slight moment he would make no objections.

Senator McCandless withdrew his motion and the report was adopted.

A communication was received from the House at this juncture in which the statement was made that the House had concurred in the reports of the Conference Committee on both the License and Internal Taxes bill.

A communication was received from the Executive in relation to the reservation of land for government purposes at Hilo and enclosing a substitute bill for the one now before the Senate. The bill reserves the waterfront in the vicinity of the Waiakea river and also Cocoonut Island for government purposes. On motion the bill was read the first time and referred to the Printing Committee.

Senate Bill 26, relating to the manufacture and storage of Hawaiian wines, was taken up on second reading. The bill allows the maker to send his wine to the nearest custom house instead of to the one at Honolulu exclusively.

A motion to indefinitely postpone section one was lost and the bill passed with two minor amendments, and was made the special order for tomorrow.

Recess to 1:30 p. m.

EIGHTY-SEVENTH DAY, MAY 29TH.

HOUSE OF REPRESENTATIVES.

In the House this morning the following communication was read from Dr. J. S. McGrew, against the objection of Rep. Bond:

To J. N. K. Keala: Sir—I beg to acknowledge the receipt of your communication dated May 26th, together with the report of the House Committee on Public Health. As president of the Medical Association of Hawaii and of the Executive Committee of the same and as chairman of the meeting when the medical fee bill referred to was passed, I may assure the Honorable House of Representatives through you that there is not the slightest cause of alarm.

So long as the medical profession is not placed upon the same footing with the vendor of articles of every description, there need be no fear by the Honorable Legislature that the members of the Medical Association will be exorbitant in their charges, and that therefore there will be no cause for any body of men, even the Honorable Legislature, to step in between the members of the Medical Association and their patients.

There is not the slightest danger that the profession on these Islands will degenerate into a meat, telephone, steamship, well-boring or other monopoly. As a class they are educated men of good character who know too well their humanitarian vocation, their professional rights as well as their duties and obligations to the people to whom they have never
